The Bar

Greetings!

This is Saleh Al Fatimi.. An Interior Designer and self-learner architect. I am a certified designer.. In love with all aspects of designs related to architecture, interiors, exteriors, 3D's, modeling, rendering, training, branding and more..

Creation is a powerful skill, an intriguing ability evolving from our originalities and perspectives. By formulating our own unique creations, we may endeavor to create a parallel between our imagination and the world in which we live.

I provide YOU with the latest design theories concepts and training.. Being part of my journey will make you in love with "design" so together make a huge transformation in our GCC community environment.. In which we have the abilities and integrity in making our countries more beautiful..

Who is better in doing this!! rather us designers..

SALEH ALFATIMI

Who am I?

Working in Design field is not such a relief. but with the experiences I stablished 15 years ago, it became my life to life enjoyment.

I started from branding in photoshop around 1999 as a graphic designer to another story in buisness. I develop my skills entities to became who I am today working with architecture and interior design field to executing projects in both residentials and commercials

I never stopped at this, I continued to train & teach students & professionals to make them the future designers in which I might take them in my firm to develop more to our concept designs

With more than 300 + plus different projects starting from a small adjustmens to a major projects.

Homes, schools, mosques, retials, shopping malls and more was part of my work for the few years back. I never stopped learning new things and keep developing my skills and quality of my work as well as collaborating with designers communities made it a wounderful journey also yet to come.

Interior Design residential

The Iron Man
Game Room

Roofs today is another story after the Covid-19 Pandemic!! A house is not anymore a shelter, it is rather a culture of gathering and entertainment..

This game room brings joy in all times with a pool table, rest area, and game station for Playstation and Exbox lovers..

Interior Design Commercial

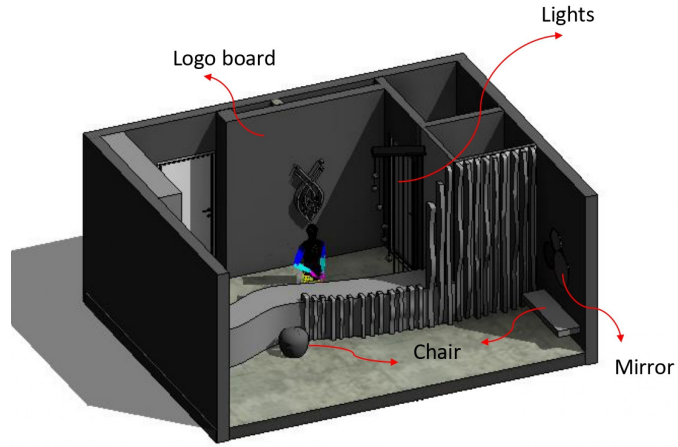

Potat
Resturant

To eat with joy.. you need a FESTIVAL style.. Specialy when the location is The Avenue..

From the Netherlands to Kuwait.. Potatos became wonder with this theme..

DESIGN 2 :

A dynamic design merged the counter design with the room to enhance the eye contact and the modern design

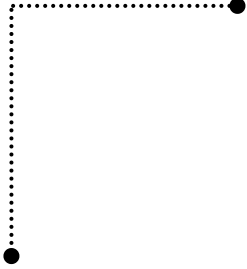

Desing the interior without considering the Facade is a huge problem!!

A blance in the design from outside to inside would help to get more traffic and sales.. this is exactly what I thought to give simple exterior yet with great privacy..

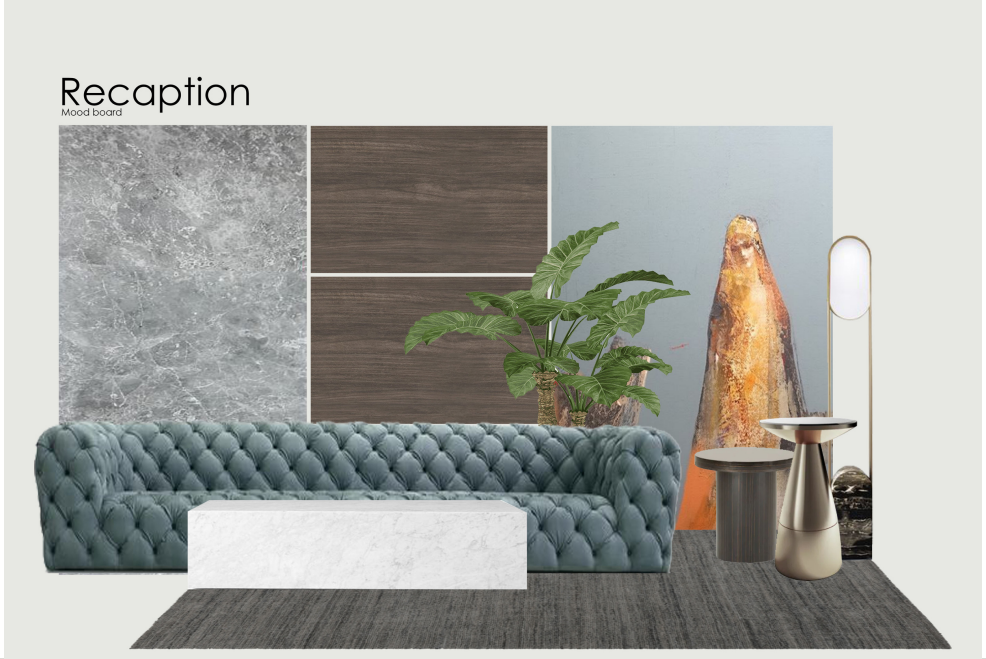

Mood Boards Inspiration

The most efficient way to share a vision..
